MAY 3 1954

MEMORANDUM FOR: Director of Central Intelligence

THROUGH

: Assistant Director (Personnel)

THROUGH

: Deputy Director/Intelligence

SUBJECT

: Request for Approval to Approach Prospective Consultants

1. Problem:

to obtain authority to approach to determine their availabilities to be members of the Ferrous Metals Consultant Panel for the Office of Research and Reports.

2. Facts Bearing on the Problem:

- a. An important sector of any economy is that of Heavy Industry, and the Ferrous Metals component of that sector is of major significance.
- b. At present, the Office of Research and Reports has only limited competence to deal with the problems associated with the economic analysis of the Ferrous Metals component of the Soviet Bloc economy.
- c. The review of intelligence produced on the Ferrous Metals industry by a balanced panel of consulting experts has been deemed desirable, based on the experience of CRR with panel review of intelligence on other sectors of Soviet Bloc industry.

d. The Chief, Materials Division, and Chief. Ferrous Metals Branch,
ORR, have conferred with
can Iron and Steel Institute,
to obtain the names of Ferrous Metals experts whose presence
on a balanced panel would make for maximum competence.
were recommended by

e. Indices checks have been made and approval has been received from the Security Office.

3. <u>Discussion</u>:

and Wire Division.

American Steel

American Steel

from the Massachusetts Institute of Technology and started in the steel
industry as an open hearth helper. He progressed through the operating

divisions of the American Steel and Wire Division
